

VENDOR SPECIFICATIONS FOR SCREENPRINTING ARTWORK

Hardware/OS: Mac - Version OS 10.4.11

All artwork must be vector art created in a vector art program such as Adobe Illustrator and set up to output spot colors based on the Pantone Matching System. Please format file as an EPS file, it is usually helpful to include a PDF version of the file for viewing to see if there is any data loss when we open in Illustrator. To make screens all art will be printed as a positive, rightreading, emulsion side up. All fonts should be outlined to avoid font conflicts. The art must be created in the following programs:

Software used:

Adobe Illustrtor CS2

Adobe Photoshop CS2

To a lesser extent: Macromedia Freehand MX

If you are using a later version of Adobe Illustrator, please save in version CS2 before sending.

Trapping:

At least 1 point

Output device:

Xanté Screenwriter 4
